GENERAL COMMISSION AND FORWARDING HOUSE.
GEORGETOWN, D. C.

THE Subscriber has opened a House in Water Street, Georgetown, for the purpose of a General Commission and forwarding business.

FLOUR & GRAIN, with other products of the country will be received and sold from the store, or shipped to any other market the owner may wish.

The owners of produce who may favor the subscriber with their business, will secure to themselves all the advantages of any rise in the markets; as he does not intend to become a purchaser on his own account, but will at all times use his best efforts to promote the interests of those who may consign to his House. Thus by paying a very moderate commission, the Farmer and the Miller may place their produce in the market to as great advantage, as if they were to rent a House for that purpose. The subscriber flatters himself that his general knowledge of the purchasers of Flour, both retailers and Bakers, in the District will enable him to do quite as well, if not better, for the Farmer and Miller, in the way of prices, than those who buy from them to sell again. Liberal advances will be made on Flour when in store.

GROCERIES, FISH, PLAISTER, and other articles that may be ordered will be selected and purchased with the greatest attention, both as to quality and price, and all descriptions of Goods from other markets designed for Canal transportation, and articles going to other markets will be received and forwarded, at a moderate commission.

Compound Syrup ICELAND MOSS

For the cure of Colds, Asthmas, Whooping Cough, Spitting of Blood and Consumption.

ICELAND MOSS grows plentifully in the island of Iceland, from whence it takes its name, and in all the high northern latitudes of Europe and Asia, where its Medicinal qualities have been long known, and highly appreciated. This plant contains a larger proportion of Vegetable Mucilage than any other known substance, and in combination with it is a bitter principle which acts most beneficially in giving strength in cases of great weakness and debility of the lungs. The knowledge of many of our most valuable medicines, for the cure of diseases, have been obtained from observing their effect on brute animals;—so in the case of this most valuable Moss. Its virtues were first discovered by their effects on the hardy, long lived, and sagacious Rein Deer, who derives its principal nourishment from the Iceland Moss, & whose milk becomes so highly imbued with its Balsamic virtues that it is used with the greatest confidence as a sovereign remedy by the inhabitants of all those countries, for the cure of all diseases of the breast & lungs. In France this compound has long been known, and extensively used; and to its salutary effects, as much as to the salubrity of the climate, is probably owing the very small number of fatal cases of consumption in that country, compared with Great Britain and the United States. This Syrup contains all the medicinal virtues of the Moss in the most concentrated form, and is prepared from the original receipt from Harris, only by

VIRGINIA—Berkeley County Court, October term 1835.

THE Court taking into consideration the act of the last session of the General Assembly, restricting the assessment to be made upon the tithables of the county to 50 cents upon each annually, and authorizing an assessment upon the Lands, Slaves, &c. of the county, provided that the amount of such assessment shall not exceed 50 percentum of the amount levied thereon, and payable into the public treasury, and believing that these limitations operate injuriously upon the interests of the country, it is ordered that a petition be presented to the General Assembly at its next session on behalf of this court, praying that a law may be passed repealing the limitation upon the power of the Court as to the amount of assessment upon lands, slaves, or if that be not deemed expedient, upon ascertaining the sense of the county upon the subject, that the law of the last session be repealed altogether. And for the purpose of ascertaining such sense, it is ordered that a copy of this order be published in the newspapers of the county.

SIXTH YEAR OF THE LADY'S BOOK

OR PHILADELPHIA MONTHLY MAGAZINE OF Literature, Fashions, and Portraits.

THE LADY'S BOOK was the first publication in this country to introduce and perfect a taste for COLOURED PLATES OF THE FASHIONS; and the universal popularity which the book obtained, with the aid of these beautiful and costly engravings, although they appeared every quarter only, was unprecedented and unexampled. The publisher, emboldened by his long experience, and the success which has crowned his former efforts to signalize his work, intends, with the coming volume, to introduce alternately every other month, in the course of the year, six splendid plates of the Fashions, superbly coloured. The engravings will be copied from original designs, prepared expressly for that purpose; thereby furnishing the patrons of the work with correct and constant information of the latest and most approved styles for ladies' dresses, as they come out. This arrangement will materially advance the value and beauty of his work, and although it will add considerably to the publisher's heavy outlays, he trusts with confidence to the liberality of a discerning public for future remuneration, corresponding with his exertions and unrelaxing efforts to keep pace with the rapid progress of the improvements of the age.

The following is the order which will be adopted for the embellishments of the Lady's Book for 1836, viz:

January, March, May, July, September, November, ENGRAVINGS OF THE PREVAILING FASHIONS; ELEGANTLY COLOURED.

With the June and December number will be furnished appropriately Engraved Title Pages, and a general Table of Contents for each volume.

February, April, June, August, October, December, ENGRAVINGS ILLUSTRATING A Variety OF INTERESTING SUBJECTS.

Beside, every number will be enriched with a Plate from the Portrait Gallery, containing the likenesses of two distinguished individuals. In addition to which, other and various Engravings will be regularly added—with two Pages of Popular Music.

The publisher has at present in the hands of an excellent artist a steel Engraving, which will contain a likeness of all the present reigning Queens of Europe, which will be given as an extra in the January No.

To meet these expensive engagements, it is absolutely necessary that remittances should be promptly made. At the end of the last six months, nearly six hundred names were erased from our list, in consequence of its appearing from the books that each over two years' subscription. Many have since paid, and some had previously settled with agents. These and other previous inconveniences a publisher has to encounter, which should as far as the Agent is concerned be remedied by his remittance, in each of the sums that he has received, at least once in every six months. Subscribers become annoyed when their names are erased for delinquency, and when they settle, they will not again renew their subscription. This, consequently, is a serious loss to the proprietor. The following suggestions are respectfully tendered for the consideration of persons who are now in arrears: Let those who owe two years, or that will owe two in December or June next, send a Five Dollar note, on account. Many persons, from forwarding their dues because they cannot remit the exact sum; it is not necessary, if they continue their subscription. It is only when a person stops the work, that a liquidation of the whole amount due becomes necessary.

Under this head will be published every month, likenesses of distinguished authors, in this country and in Europe. Striking resemblances of Bulwer, Brongniams, Hagg, Cunningham, &c., &c., have been given. The following are now ready for press, and will be published two in each number until the whole is completed: Shelly, Lewis, Moore, Coleridge, Rogers, D'Israeli, Neale, Madame de Staël, Jane Porter, Campbell, Roscoe, Southey, &c.

Fac similes of the writing of Washington, Jefferson, Madison, Monroe, Adams, Byron, Scott, and other distinguished persons have already appeared. Those of Napoleon, Franklin, La Fayette, &c., &c., are in preparation.

The publication views of beautiful scenery and remarkable public edifices, will be continued as heretofore.

Every number of the work contains forty eight large octavo pages, printed on fine white paper, the whole neatly attached in covers. The postage for each number is 3 cents for any distance under 100 miles—5 cents, over.

To convince persons wishing to subscribe for the Lady's Book, that it is equal in point of embellishments, the interest of its contents, and general beauty of appearance, to the descriptions repeatedly given at large, and the flattering notices that have been made of it by editors in different sections of the Union, the publisher will forward any monthly number as a specimen, by sending him a letter, post-paid.

The work will in future be published and delivered on the first of each month in Philadelphia, New York, Boston, Baltimore, and Charleston—in New Orleans about the 5th.

Subscribers missing a number, will please inform the publisher free of postage, and a duplicate will be sent them.

TERMS OF SUBSCRIPTION, 3 dollars per annum, payable in advance. Postmasters and Agents can have two copies forwarded to any direction, by advancing five dollars.
